

Blackboard 9.1 Supported Browsers and Operating Systems

Locate your Operating System in the first column. Next, locate your Browser in the top row to find the intersecting cell.

If the intersecting cell shows:

- *Compatible* or *Certified* - You are using a supported configuration and do not need to do anything further.
- *Unsupported* or if your browser is not shown in the matrix – Your browser is currently unsupported and/or untested by Blackboard and you should switch to a supported browser.

NOTE: Google Chrome and Mozilla Firefox have moved to a rapid release cycle. At the time of testing, Chrome 10 and Firefox 4.0 were the latest available versions. Since then, new stable versions have been released. Blackboard is supporting all newer stable versions of Chrome and Firefox.

Windows Platform

	Internet Explorer 9	Internet Explorer 8	Firefox	Firefox 3.6	Chrome
